

***Rare Low-Mileage Avanti Grand Touring Coupe RQB3866.***

*Designed by Raymond Loewy, only 50 Avanti Grand Touring Coupes were built, available in four colors with coordinated interiors and all available factory options at an original cost in 1984 of \$38,900. Imported from South Bend, IN., this is one of the 15 silver-exterior/silver-black-interior registered models. No exterior chrome anywhere--all blackout trim. As with all original Grand Touring Coupes, this car comes with high performance tires on special GT cast aluminum wheels.*

*Body is fiberglass. Interior is all hand-crafted leather with black and silver heated Recaro C seats. Carpet is grey with black mats. Black brushed alum dash & console with a signed black leather steering wheel. Air Conditioning, cruise control, power windows, power brakes, tilt wheel steering, rear window defrost, power mirrors for both sides, analog red gauges, Blaupunkt cassette AM/FM radio w/power antenna & 4 speaker system, electric sun roof with inside slider for moon viewing, electric trunk release, disc brakes on the front, windshield washer, standard GM 305 HO (high output) engine.*

*All original except 5-speed manual transmission w/Hurst shifter added by Jon & Mike Myer in 2003 when they tuned the engine and replaced all seals following 15 years in storage (sale includes the rebuilt original automatic transmission for matching numbers). Car is garaged, with less than 18,000 miles on the odometer.*

*The car would require detailing and repainting to be a show car. As is, a nice "20 footer" that is a lightly driven driver that could take you anywhere.*

*Asking \$22,900 OBO. No trades. Pearland, Texas 77584:*
