## **In this edition is information on the International European meets for 2022 and 2023.**

First up it's Switzerland in August 2022 - They have booked a hotel in a Castle.

For 2023 we are off to France with the Amicale Studebaker Club. The rally is set around the 100 year anniversary of LeMans. It's going to be a busy and popular meet, so register interest early.

If you have one attended meets in America, then perhaps you could consider attending a real International meet in another country?

The European Clubs hold International meets where they always try to out do each other. These are small meets by comparison to the ones that you can attend in America, but jam packed with interesting things to do, with great

food and the occasional tipple during and after dinner.

No need to worry about speaking the language, as most people speak some English and there are always places for passengers in cars for those attending without a car.

Hopefully we will see you and your friends at one of these stellar meets.
